

TCM Forklift Parts

TCM Forklift Parts - In the global trade of material handling, forklifts play an important role for transporting industrial goods. Initially innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained popularity following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these equipment spread internationally.

In the year 1949, established by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Now the company is simply known as TCM Corporation. Through the years, TCM lift trucks have become a global leader in forklift manufacturing and have built a solid reputation with the industry. TCM started building forklift manufacturing locations outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

With over fifty years of accumulated expertise and technology, TCM has been proudly manufacturing various models of industrial trucks, making their models known all over the world. With an energetic and strong workers, TCM has been able to continually work towards becoming a future leading material handling company.
