

## Concrete Hoppers

Concrete Hoppers - This particular attachment is a self-dumping hopper which automatically starts to dump as soon as bumper release contacts the side of a dumpster. When unloading is done, the hopper returns to an upright and locked position. This particular piece of equipment is also presented along with a cable which allows operation from the seat of the lift truck in order to have the option of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This particular product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to be able to maintain durability.
